## Network Engineer

I worked from a young person to develop myself in the field of technology and information security, this time the information and how to learn was very weak on the Internet, but thanks to God I continued and now I adore the field of infrastructure from building and solving difficult problems and not giving up in front of any problem at all.

## EXPERIENCE

---

<b>Network Engineer and System Admin</b> <b>Telecom Egypt</b>	<b>(Damanhour, Egypt)</b> <b>04/2023 – 09/2023</b>
